* Formerly known as the Northern Climate Specification

† Prior to May 2016, products qualified under the EFnc value and the Northern Climate Specification. Those products remain qualified and eligible until discontinued. Beginning in May 2016, changes to the test procedure necessitated a change to the UEFnc value. Hence, all products qualified after May 2016 are subject to the UEFnc requirements of the Advanced Water Heating Specification.

For specifications, procedures, and criteria, see: <http://neea.org/advancedwaterheaterspec>

Northwest Energy Efficiency Alliance
