

ISCC 2023 Annual Workplan <i>Updated 9/21/23</i>							LIST OF 2023 PRIORITY 1 TOPICS: <i>(In order of highest ranking, per survey)</i>
Reminder: 75% of Agenda is dedicated to Priority 1 topics, 25% to Priority 2 topics							
PRIORITY 1 TOPICS 75% of agenda time	Q1 2023 Feb 13 1-4p (Virtual)	Q2 2023 - Day 1 May 15 (virtual)	Q2 2023 - Day 2 May 16 (Day 2 canceled)	Q3 2023 Aug 14 (virtual)	Q4 2023 - Day 1 Nov 6 (virtual)	Q4 2022 – Day 2 Nov 7 (virtual)	Res Building Envelope: High Performance Windows (HPWs) Topic D: Engaging with Multi-Family projects to understand approaches to multi-family projects, the decision-making process and any equity lens offerings on retrofit projects Topic A: Leverage IRA funding to understand new opportunities for DOE funds
	RES WINDOWS: High Perf Windows Topic A: Convene & Collaborate Panel Session with guest speakers: Leverage IRA funding to understand new opport for DOE funds. <i>**TBD pending outcomes from federal funding workshop</i> Topic D: Lessons Learned Panel Discussion: Engaging with Multi-Family projects Desired Outcome: Committee collectively shares lessons learned to further understand approaches to multi-family projects, the decision-making process and any equity lens offerings on retrofit projects	COMM LIGHTING: Luminaire Level Lighting Controls Topic C: Review current LLLC training approaches/ topics which ISCC is already implementing/ planning COMMERCIAL HVAC: High Perf HVAC Topic D: Discuss leveraging and navigating NEEA’s QPL → Address in Q3	RES HVAC: Advanced Heat Pumps (formerly Variable Speed HPs) Topic A: Regional cross-sharing: Understand & align incentive requirements to leverage IRA funding. <i>**Check with NEEA’s Policy team → Hold on this; RPAC Federal Funding Coordination work group formed</i> or Topic D: Regional sharing & leveraging of diff approaches to define baseline, address capacity issues/other benefits f/programs → Address in Q4	RES WINDOWS: High Perf Windows Topic A: Leverage IRA funding to understand new opportunities for DOE funds → TBD pending Federal Funding Coordination workgroup COMMERCIAL HVAC: High Perf HVAC Topic A: Regional sharing & leveraging of different approaches to define code baseline for this technology. There was broad agreement that NEEA would facilitate a utility roundtable/share-out of how each of you are approaching cost effectiveness and defining baseline for this technology. → Address in Q4	RES HVAC: Advanced Heat Pumps Program updates post RPAC Vote. Apprise Committee of Stakeholder input and 2024 planned program activities. COMMERCIAL HVAC: High Perf HVAC Utility roundtable discussion on development of DOAS-related measures.	Annual Planning	Commercial Lighting: Luminaire Level Lighting Controls (LLCs) Topic C: Review current LLLC training approaches/ topics which ISCC is already implementing/ planning Topic E: Share learning by utilities from LLLC projects & key takeaways from LLLC MPER#2 Residential HVAC: Advanced Heat Pumps (AHPs) Topic A: Understand & align incentive requirements to leverage IRA funding Topic B: Understand new fed test stds & diff products in market f/prog delivery Topic D: Regional sharing & leveraging of diff approaches to define baseline, address capacity issues/other benefits f/programs Topic C: Explore how to improve management of suppl heat in CC LIST OF 2023 PRIORITY 2 TOPICS: <i>(In order of highest ranking within each product group, per survey)</i> Commercial HVAC: High Performance HVAC (VHE DOAS) <i>Committee did not align on any Priority 1 Topics. NEEA’s recommendation is to review the Priority 2 topics during main agenda time as shown on the left;</i> Topic B: Local utility prog & MT regional prog share out on key findings (program and technical or market research); Recapping the year’s coordination and looking toward 2024 Topic C: Lever fed, state, local funding (IRA, IJJA, ESSER) to promote syst approaches Topic A: Reg sharing & leveraging of diff approaches to define code baseline for this tech (Red Car Analysis) Topic E: Discuss capacity issues & shared learnings/ approaches to quantifying benefits & applying CE calc Topic D: Leverage/navigate NEEA’s QPL
	PRIORITY 2 TOPICS 25% agenda	Hold time for Priority 1-2 topics (~30 min)			Hold time for Priority 2 topics (~30 min)		
ROUNDTABLE TOPICS							
KEY PROGRAM HIGHLIGHTS		Advanced Heat Pumps (AHPs) Potential Milestone Advancement into Market Development Q2 or Q3 2023 RPAC Vote			High Performance Windows (HPWs) Potential Milestone Advancement into Market Development Q4 2023 or Q1 2024 RPAC Vote		Res. Building Envelope: High Performance Windows (HPWs) Topic E: Savings/ CE barriers Topic B: Review new E* V7 spec to understand opportunities re: NEEA's MT practice & utility prog strategies Topic F: Cross-sharing experiences from local + NEEA perspectives Topic C: Discuss product avail challenges in rural areas/ bulk purchase opportunity "Buyers Club"
PORTFOLIO UPDATES		Program Activity Reports			Program Activity Reports 2024 NEEA Ops Plan Highlights		Commercial Lighting: Luminaire Level Lighting Controls (LLCs) Topic D: Share summarized LLLC utility project data to gain insights on adoption of LLLC Topic B: Discuss utilities' experience & opportunities to expand advance controls to exterior applications Topic A: Review approaches for reporting LLLC energy savings, incl RTF & utility methodologies Topic F: Discuss challenges with incentivizing LLLC, including CE
OTHER <i>*Meeting dates, utility related, announcements, etc...</i>	EFX dates / registration	EFX Recap			NEEA Ops Plan webinar for RPAC	EFX topic solicitation Leadership Awards Confirm 2024 meeting dates	HVAC Residential: Advanced Heat Pumps (AHPs) Topic E: Sharing on supply chain constraints & labor barriers
